

I as a Wi CapTel participant since the fall of 2001, words cannot describe how impressed I am, along with my families, many friends especially my hearing husband, Russell, how thrilled we are to use this new Captel phone. They all are very happy to hear my "own voice", and much more comfortable, fast as well. My favorite part is my two small hearing children, I can be able to talk to them from my work or be able to understands what they are talking about when they talk to their "grandma". This will also be wonderful for our future Canine boarding Inn business.

I along with my husband, Russell strongly supports the Ultratec's Captel petition because Captel can make me feel almost perfect that I can do it on my own.

Your truly,  
Karolyn and Russell Newman
